

## AVIATORS HERE

## AFTER LONG TRIP

What is thought to be a record with the special type of plane used, a distance of 1,250 miles in 14 hours and 20 minutes, has been made by two representatives of a new airplane company of Helena, Ark. They are J. Dixon Davis and Hugh Copeland, both having been service in the flying corps in France.

The plane used was an Avro, a type of British make used extensively in the war, both for training and fighting purposes. The trip was made from New York to Buffalo, Cleveland, Dayton, Cincinnati, Louisville, Mount Carmel and Memphis. Mr. Davis says it is his intention to start an air route from Helena to Memphis.

The trip, according to Mr. Davis, was made with only one breakdown, and that was a small affair, no casualties resulting. Mr. Davis was with the London air defense for nine months during the early part of the war. The plane left for Helena Wednesday at 2 o'clock.

## RUMORS MAY INDICATE SANTA FE'S LOCAL ENTRY

Persistent rumors are being heard in Memphis railroad circles that directors of the Santa Fe line are negotiating for the purchase of the Missouri & North Arkansas road. Should these reports be true and should the line be acquired, it likely would mean the entry of the Santa Fe into Memphis.

In support of the rumors it is argued that considerable freight is now given to the Santa Fe by the smaller line and that a combination would be especially desirable. It is no secret that the M & N. A. has been striking rough going in a financial way while the other lines have been making rapid strides.

Recent loans approved by the interstate commerce commission give much new equipment to the Santa Fe and it is certain that should the new line be acquired that these new cars would prove a considerable asset in splitting the freight movement out of Memphis and tributary territory.

## CONTRACTOR STATES FACTS

McAloney Gains Twenty-five Pounds and Feels Like a New Man Since Taking Tanlac.

"Tanlac has not only relieved me of my five years of stomach trouble, but I have gained twenty-five pounds in weight besides," said Robert McAloney, well-known contractor, of 22 York street, Halifax, N. S.

"My stomach seemed to be upset all the time," said Mr. McAloney, "and it would get as sour as vinegar. Nothing tasted right or agreed with me and after forcing down a little something at mealtime, I would bloat up with gas so I would be miserable for hours. There would be sharp, cramping pains I could hardly get my breath. Many a night the gas bothered me so much that I walked the floor all night without a wink of sleep. I had to lay off for weeks at a time and lost thirty pounds in weight. I was habitually constipated and had a nagging headache nearly all the time. Of mornings I felt so tired and no-account it was an effort to drag myself out of bed and I had suffered so long without being able to get any better I had about reached the point where I didn't care whether I lived or not.

"But I feel entirely different since taking Tanlac, for it has put me in such fine shape I eat three big meals a day without the least trouble. The constipation, headaches and fagged out feeling are entirely gone and I get up in the mornings ready for a hearty breakfast and a good day's work. I simply feel like a new man and I am glad to let others know what a fine medicine Tanlac is."

Tanlac is sold in Memphis by the following agents: Warnock Drug company, Weiss Pharmacy, Doyle-Turley Drug company, A. Benker & Co. (two stores); L. H. Kilpatrick, Washington Purdy, Moore's Pharmacy, Taylor & Taylor, three stores; Wagon-Lyle Drug company, C. O. Manning and Heister's Pharmacy, adv.

## Service Men Slow In Getting Medals

The United States army recruiting service has been informed that during the first month of the distribution of the victory medals only 50,000 applications have been made by those entitled to one. The army made provisions for the issuance of 25,000 per day at which rate it would require four months to complete the distribution

of nearly five million. At the present rate of issuance it will require six years to put one in the hands of every person entitled to a medal. The medal is given without cost to every person who served in the army during the war. Battle clasps are given also for all major operations and for service in Siberia, Russia, England, France, Italy and other places where American troops served, but who engaged in no battles.

The medals may be obtained by making application to the nearest army recruiting office. Blank forms will be sent upon request, and the completed application will be forwarded to the army supply depot, Philadelphia, and the medal will be sent by mail promptly after the application reaches the depot. Application blanks may also be obtained from many of the American Legion posts.

There are thousands of men and women in Tennessee who are entitled to a medal who have not yet made application for it.
